## About Me

Jean M Nkuru; I am a young motswana woman born in 1979, raised in a Christian family. I started singing in my early years around 8 years old leading worship in Calvary Church. In my early teens I was a lead singer in Assemblies of God in Bobonong.

In 2008, I was one of the Lead Singers in the SADC Convention held at Boipuso Hall, Fairgrounds involving many African Countries. I am a very energetic person and willing to learn and help others grow in their love for music.

Music is food for my soul and it helps people more to be closer to God The Creator, my inspirations are from people like Rebecca Malope, Mariam Makeba, Cece Winans.

My desire is to be an inspiration to the youth and raise many to reach for their dreams.

I released my first Single - Titled : I found myself in you in February 2018. This was inspired by the man at the pool who sat waiting for 38 years. It was produced by Mojo Media, Producer John Mwanza in Zambia.
